

TOPIC: STRATEGIES TO LOWER THE TOTAL COST OF OWNERSHIP

QUESTION: Are there other alternative ways do the same thing as the technology you are familiar with?

“Ubuntu operating system is built on the Debian version of Linux. There’s also Red Hat which is the well known company in the Linux community. However a lot of their products are fee based. You have to purchase licenses for their software. There’s also Novell version of Linux. The Open SuSe is their free version. They also have a pay version of their software as well.”
